Shenzhen MCD Electronics CO.,Ltd

Product Introduction:

MCD-500C metal detector has 18 exploration areas, six independent explorations around the area, six complex explorations area in the middle of detection door. Besides it support remote control, and it can be controlled in front of the front door with LED within 50 meters. It has a four column alarm region with built in ultrahigh LED panels that can display the place of objective. The sensitivity of every area can be adjusted independently from 0-99, and prevents interference of scheduled metal. Besides the counting statistics ,features is based on intelligent traffic and police counter statistics function and calculated through the volume and frequency of alarm. And it owns a password protection function, which makes the operation safer.

Product Parameters:

- 1.Alarm way:Audio Alert,and LED Location lamp work at same time .
- 2.Detection Zone: 18 zone
- 3.Display ways: Single-line of LCD display
- 4.Sensitivity:0-99 adjustable
- 5.The main body with waterproof function.
- 6.Tunnel Size:200(L)*70(W)*56(H)cm
- 7.Dimension:222(L)*82(W)*67(H)cm
- 8.Net Weight:54.5kg/set Gross Weight: 65.kg/set
- 9.Package Size: Main Body: 230*72*25cm(2 piece /carton)
Host Machine:78*47*28cm(1 piece/carton)

Feature and Application:

Fireproof,waterproof ,and shockproof.multi-zone alarm.LCD display, totally English Menu,this type door can prestore 3 type different model ,This detector door divide people with 18 zone ,better sensitivity.Apply for need high sensitivity Exhibition Areas for both indoor and outdoor check,such as hardware and Electronic manufacturer check if the person steal the metals,or Apply for large public Events, check the person if take leather weapon.it is very suitable for exports
